RESEARCH AND DEVELOPMENT CENTER RESEARCH PROPOSAL REVIEW

Department : _____ **Adviser:** _____

Approved Title :

Proponent/s : _____

Direction: Please evaluate how the assessment points outlined below have been appropriately addressed by the research proposal, as applicable by confirming the submitted information and putting your comments in the space provided under "COMMENTS"

STATEMENTS	YES	NO	COMMENTS
Clarity of Research Objectives			
1. Are the research questions or objectives clearly articulated and well-defined?			
2. Is there a clear and logical rationale for the study?			
Literature Review			
1. Does the literature review demonstrate a thorough understanding of existing research in the field?			
2. Is the literature review up-to-date and relevant to the proposed research?			
Theoretical Framework			
1. Is there a well-developed theoretical framework guiding the research?			
2. Does the theoretical framework align			

with the research questions and objectives?			
Research Design and Methodology			
1. Is the research design appropriate for addressing the research questions or objectives?			
2. Are the methods described in sufficient detail to allow for replication?			
3. Is the sample size justified, and is the sampling method appropriate?			
Data Collection			
1. Are the data collection methods clearly described and appropriate for the study?			
2. Is there a plan for ensuring data validity and reliability?			
Data Analysis			
1. Is the proposed data analysis approach suitable for answering the research questions?			
2. Are statistical methods, if applicable, appropriate and correctly applied?			
Significance of the Study			
1. Does the proposal clearly articulate the potential contributions of the research to the field?			
2. Is there a discussion of the practical implications of the study?			
Feasibility			
1. Are the resources (time, personnel, funding, etc.) required for the research realistically addressed?			
2. Does the researcher have access to necessary data sources, equipment, or facilities?			
Ethical Considerations			
1. Are ethical considerations in research adequately addressed?			
2. Are there plans for obtaining informed consent and ensuring participant			

confidentiality?			
Presentation and Communication			
1. Is the proposal well-organized and clearly written?			
2. Are the ideas presented in a logical and coherent manner?			
3. Is the language appropriate and accessible to a diverse audience?			
Instruction to the Reviewer: Please count the number of items check with “YES” and it will be your guide in your decision using the following scheme: • 22 points (100%)- accepted with no revision • 15-21 point (90 %)- accepted with minor revision • 8-14 points (80%)- accepted with major revision • 1-7 points – (70%) deferred			
_____ Signature of Reviewer over Printed Name Date Signed: _____
